

**Watch out for our new pig in our new training wall planner flying its way to you in early 2010**

### **Did you know?**

INDG417 Issued 09/09 - The Institute of Directors and Health and Safety Executive are leading health and safety at work. The board of directors in companies in order to meet their legal obligations should ensure that appropriate weight is given to reporting both:

- Preventive information (such as progress of training and maintenance programmes) and
- Incident data (such as accident and sickness absence rates)

For further information please go to [www.iod.com/hsguide](http://www.iod.com/hsguide) or contact MCP at [training@mcpeurope.com](mailto:training@mcpeurope.com)

### **Maintec 2010**

Join us at Maintec, NEC March 2-4 2010, [register your ticket now.](#)

Join the learn shop where MCP's Consultant Peter Jackson will be speaking about how "In the current climate the desire to be lean means that people need a wider range of skills. Asset management encompasses a vast number of techniques and principles which require a clear understanding in order to be effective. To produce the desired results manufacturers need a structured approach to maintenance training.

### **Maximising Plant Efficiency Seminar Unites Food and Drink Companies in Facing the Skills Challenges**

Bringing together training, hr, maintenance and engineering professionals from food and drink organisations has led to a determined commitment to work together to find a united way of progressing skills and training to maximise plant efficiency. "We must leverage all the skills and experience around the room to help each other, said Phil Hooper, Organisational Capability Manager at PepsiCo.

Engineers and managers from companies such as Thorntons, Britvic, Premier Foods, Kellogg's, Carlsberg and Cadbury joined the debate about the issues facing engineering and maintenance training. The Seminar, hosted by MCP with support from the National Skills Academy, Reaseheath College and CenFRA, was a starting point for setting the agenda for shaping the performance of training for operators and technicians in the food and drink sector.

The seminar is the first stepping stone in a journey to ensure best practice in training with a second seminar already planned for spring 2010.

Find out how our 2 day course, Managing Plant Reliability can help your understanding of the new machinery directive – email [training@mcpeurope.com](mailto:training@mcpeurope.com)

## UK's only City and Guilds accredited Mechanical to Electrical courses

Course	Parts	Days	Venue	Date	Cost
M to E	1	4	Reading	11-14 Jan	£890+VAT
M to E	2	4	Reading	15-18 Feb	£890+VAT
M to E	3	4	Reading	22-25 March	£890+VAT

**MCP accredited by the NSA for food & drink as champion for engineering & maintenance**

Course	Parts	Days	Venue	Date	Cost
<u>Maintenance Best Practice</u>	-	4	Birmingham	11-14 Jan	£895+VAT
<u>Maintenance Planning and Scheduling (work planning and control)</u>	-	2	Birmingham	22-23 Feb	£550+VAT
<u>Managing Plant Reliability (DEPMP)</u>	-	3	Birmingham	12-14 April	£675+VAT
<u>Maintenance Explained</u>	-	2	Birmingham	20-21 Jan	£550+VAT

**Email us to arrange a course at a time and place to suit your shift patterns**

**MCP Consulting services - Find out more about MCP's:**

Maintenance Assessment - AMIS Audit - Find out how effective your maintenance is

Maintenance Improvement - Looking for a reduction in your operational costs?

Manufacturing Improvement - Enhance your operational performance

## 17th Edition Courses

Course	Parts	Days	Venue	Date	Cost
Full Course	-	5	Reading	22-25 March	£780+VAT+Regs Books
Update Course	-	1	Reading	15 Jan	£220+VAT
<b><u>Mechanical Maintenance Skills</u></b>					
MMS	1	4	Reading	11-14 Jan	£780+VAT
MMS	2	4	Reading	22-25 March	£780+VAT
